ALEJANDRO ORTIZ LUNA

FRONTEND DEVELOPER

+1 year of experience specializing in creating responsive user interfaces (UI) and intuitive user experiences (UX). Focused on adding value and creativity to the team, two fundamental elements for the development of high-quality digital products.

EXPERIENCE

Frontend Developer at No-Country

September 2024 - October 2024 [WorkWise, RH Manager.]

RESPONSABILITIES

- Developed the application using Next.js, Tailwind, Zustand, and Shadcn for the circular menu, including route integration and layout.
- Implemented the layout and functionality of the vacation page with API integration.
- Integrated with the attendance control API.
- Created a modal for accepting vacations and developed a 5-step registration form for employees and vacation requests.
- Developed the logo and brand identity for the application.
- Designed pages such as the employee management interface, employee registration form, vacation request form, and circular menu.

KEY ACCOMPLISHMENTS

- Adapted to the atomic design pattern in frontend development.
- Ensured that the layout was faithful to the design.
- Maintained excellent communication within a team of 9 people.
- Took on the role of UX-UI Designer in the absence of a design team.

Frontend Developer at No-Country

August 2024 - September 2024 [Mentos, Marketplace]

RESPONSABILITIES

- Worked on the layout and functionality of the mentor and review interfaces, as well as the landing page, using technologies such as React and Tailwind.

KEY ACCOMPLISHMENTS

- In the absence of the backend team, I successfully developed a backend using technologies like Node.js, Express, and MongoDB, enabling the project to move forward.
- Led productive daily stand-ups, enhancing team collaboration and issue resolution.
- Successfully met sprint deadlines with a team of 12 people, maintaining excellent communication throughout the team.

Frontend Developer at No-Country

June 2024 - July 2024 [Easy Turnos, Shift Management.]

RESPONSABILITIES

- Participate in sprint planning meetings, contributing to defining project priorities.
- Distribute tasks to the team based on each developer's skills and capabilities.
- Communicate with the TLs of other teams to understand integration needs and requirements.
- Resolve issues related to technical aspects of the team.
- Use tools like Trello and GitHub Projects to manage task progress.
- Work with technologies such as React, Material-UI, Tailwind, and React Calendar.
- Layout and develop the calendar functionality, ensuring a smooth and intuitive user experience.

KEY ACCOMPLISHMENTS

- As TL, I resolved a problem related to the selection of a library, adapting the decision in the frontend for better team development and application performance, based on what was developed by the backend team.
- As a developer, I worked in a team of 15 people, collaborating effectively.
- Implemented technologies such as TypeScript for the first time, achieving the desired functionality for the calendar.

Frontend Developer at No-Country

April 2024 - May 2024 [HR-Nexo, HR Manager]

RESPONSABILITIES

- Develop the complete design of the application, focusing on a modern web app and creating the visual identity, including the logo.
- Layout multiple interfaces of the application, ensuring usability and visual consistency.
- Provide the software architecture to be used in the frontend, opting for screaming architecture and explaining to the team how to implement it, using technologies such as React, Tailwind, CSS Modules, and Material-UI.

KEY ACCOMPLISHMENTS

- Implementation of additional functionalities not anticipated in the sprints, such as internal messaging and user filters.
- Effective collaboration in a team of 6 people, contributing to a positive and productive work environment.
- Ability to quickly adapt to assigned tasks, learning new technologies as needed.

SKILLS

✔ Fast learner	✔ JavaScript	✔ Node.JS	✔ Tailwind
✔ Team player	✔ TypeScript	✔ Express	✔ Sass
✔ Adaptability	✔ React	✔ MongoDB	✔ CSS Modules
✔ Problem solving	✔ Next.JS	✔ Nest.JS	✔ Figma

EDUCATION

Full-Stack Developer at CoderHouse

November 2023 - September 2024 [Argentina]

LANGUAGES

Native Spanish, Fluent Portuguese, Intermediate English
